

LB893, 974, 1038, 1039, 852, 920, 782,
785, 223, 223A and 813

February 26, 1974

advance LB893. Do I see any objections? I see none. LB893 is advanced to E & R initial. Next bill is LB974.

CLERK: LB974 read. There are no committee amendments.

PRESIDENT: Senator Kremer.

SENATOR KREMER: Mr. President, I ask unanimous consent to advance LB974. All the bill is, it provides that it changes the name of the license....driver license abstract computerization fund to the Department of Motor Vehicles, rather than to the Department of Drivers Licenses. It just takes it into a different department. This is at the request of the Department of Motor Vehicles.

PRESIDENT: Any objections to the unanimous consent motion to advance the bill? I see none. LB974 is advanced to E & R initial. Next bill is LB1038. Senator Duis.

SENATOR DUIS: I wanted you to check with Senator Luedtke because I think the next several bills will have to be passed over. Senator Luedtke?

SENATOR LUEDTKE: Well, they never went to committee. They were put on General File without.....oh, those were the two that were put on General File. Oh, that's right. That's why there's no report.

(End of Belt #7A)

(Begin Belt #8A)

PRESIDENT: I don't believe we have.....Pass over LB1038 and LB1039? Next bill LB852.

SENATOR CARPENTER: I move it be passed over.

PRESIDENT: LB920. Do you wish to speak, Senator Duis? Okay, your light's on.

CLERK: Read LB920. No amendments.

PRESIDENT: Senator Luedtke.

SENATOR LUEDTKE: Mr. President, I ask unanimous consent that LB920 be advanced to E & R initial. This bill was heard by the Public Works Committee. There was no opposition. There was good strong support for it. What it does, it allows merely passenger buses and no other trucks or vehicles, just passenger buses which are operating commercially to exceed their length by six inches for the necessity of front or rear safety bumper. Now, that's a six inch extension front and rear for the safety bumper. Under the new energizing type system for safety purposes, our particular law is so strict that the commercially operated buses could not operated legally on our highways with that safety bumper unless we pass this legislation.

PRESIDENT: Any objection to the unanimous consent motion to advance LB920. I see none. LB920 is advanced to E & R initial. Next bill LB782. Senator Carpenter.

SENATOR CARPENTER: Mr. President, I move that LB782, LB785, LB223, LB223A be passed over.

PRESIDENT: Next bill's LB813.
